I am a final-year PhD candidate at Center for Machine Vision and Signal Analysis (CMVS) in University of Oulu, Finland. I have visited the AMLab, University of Amsterdam for six months in 2021 and 2022. By April, 2023, I accomplished my 7-month internship at Intel Lab, Germany. My thesis topic is Efficient Representation Learning for Computer Vision, towards building real-time and compact computer vision models with deep learning. I have great interests in computer vision and machine learning and am open to related work positions.
